

## Conference Invitation

### Closing Event Interreg NWE project Suricates

### Sediment Uses as Resources In Circular And Territorial Economies

The Suricates Project Partners are delighted to present the results of their activities since project commencement in 2018. We had Brexit, COVID pandemic, Ramsar birds and even the Queen's jubilee across track but we made it!!! You are more than welcome to take part in our Closing Event which takes place at the Polytech-University of Lille (FR) December 15<sup>th</sup>, 2022.

#### Interreg NWE Suricates

This 14 partners / 4 countries project belongs to the Interreg Programme Priority Axis 3 (Resource and materials efficiency) and the Specific Objective SO5 (To optimise (re)use of material and natural resources in NWE).

The aim of the Suricates project is to increase sediment reuse for erosion and flood protection, providing authorities, port and waterway managers and erosion experts with new large scale solutions for sediment reuse in NWE ports, waterways and coastlines.

#### Programme

You can look forward to the presentations of the project results by our project partners together with three keynote speeches given by external experts including sediment managers and Interreg NWE. In addition, coffee breaks and a cocktail lunch will give you room for a tchat with the Suricates partners and invited speakers.

#### Sign up

Are you joining us? Cannot come to Lille in December? We offer both onsite and online access to our Closing Event but registration is mandatory using this Framadate survey:

<https://framadate.org/96qxGzNfOcun8v1P>

There will be a limited number of 80 people able to attend onsite and of 80 people online. We apply the first come first serve rule so don't lose your chance to join in by sending us your individual confirmation, by December 12, 2022.
